2. Project Overview
3. End Users
4. Tools and Technologies
5. Portfolio design and Layout
6. Features and Functionality
7. Results and Screenshots
8. Conclusion
9. Github Link

PROBLEM STATEMENT

In today's digital era, traditional resumes alone are not enough to showcase skills and projects effectively. Many students and professionals lack a structured online presence to highlight their work. A digital portfolio provides an interactive and accessible platform to present achievements, skills, and experience

PROJECT OVERVIEW

This project is a portfolio website built using HTML, CSS, and JavaScript. It has sections for About, Skills, Projects, and Contact, navigated without page reload.

The Skills and Projects use card-based layouts with responsive design. The Contact form accepts only Gmail addresses, checks for common mistakes (like “gamil.com”), The design uses modern CSS styles with grids, shadows, and a clean layout.

WHO ARE THE END USERS?

Students/Devel

-opers – for
learning form
validation.

Web designers
– can integrate
into
login/contact
forms.

Businesses – to
collect valid Gmail
IDs for
newsletters or
customer
registration

TOOLS AND TECHNIQUES

HTML5 – structure of the form.
CSS3 – styling (background, fonts, colors).
JavaScript (Vanilla) – validation logic and error handling.
Browser – Chrome/Edge/Firefox for testing.

POTFOLIO DESIGN AND LAYOUT

- ✓ . Background color: light gray for simplicity.
- ✓ . Image at the top (car photo as per your code).
- ✓ . Form in the middle with input box + send button.
- ✓ . validation messages in red (error) and green (success)

FEATURES AND FUNCTIONALITY

- ✓ . Background color: light gray for simplicity.
- ✓ . Image at the top (car photo as per your code).
- ✓ . Form in the middle with input box + send button.
- ✓ . Validation messages in red (error) and green (success)

RESULTS AND SCREENSHOTS

CONCLUSION

- * Implemented a simple, efficient, and user-friendly Gmail validation form.
 - * Helps avoid invalid email submission
 - * Enhances user experience and data quality
- CAN BE EXTENDED FOR ADVANCED VALIDATIONS (REGEX, MULTIPLE DOMAINS, ETC.).

Thank you
